CLEAF

Cleaf è un'azienda italiana che produce superfici e soluzioni innovative per il settore dell'arredo e dell'interior design. Pannelli nobilitati, laminati e bordi interamente sviluppati all'interno dei siti produttivi in Brianza e installati in tutto il mondo da architetti e aziende per creare spazi stimolanti in cui vivere e lavorare.

Cleaf is an Italian company producing innovative surfaces and solutions for the furniture and interior design industries. Faced panels, laminates and edges exclusively manufactured at production sites in Brianza are installed worldwide by architects and companies building inspirational spaces for living and working.

ESPRESSO

L'Espresso è un servizio di scorte per i rivenditori ufficiali Cleaf. Una selezione di prodotti della collezione sempre disponibile e ordinabile in pacchi o singoli articoli, esclusivamente online.

The Espresso is a stock service for Cleaf official dealers. A selection of products from the collection always available that can be ordered in bundles or single products, exclusively online.

THE COLLECTION

La collezione Espresso Cleaf evidenzia l'innovativa ricerca estetica e tattile sulle superfici. Una collezione completa e coordinata - 131 prodotti, sviluppati in 29 finiture, disponibili come pannello nobilitato, laminato e bordo - che consente la creazione di molteplici combinazioni stilistiche per contesti diversi. Una collezione che certifica la capacità del Made in Italy di interpretare le esigenze dell'arredamento contemporaneo e degli ambienti più stimolanti, grazie al continuo scambio di idee con architetti e designer industriali.

The Cleaf Espresso collection highlights the innovative aesthetic and tactile research on surfaces. A complete and coordinated collection - 131 products, developed in 29 textures, available as faced panel, laminate and edge - which allows the creation of multiple stylistic combinations for different contexts. A collection that certifies the Made in Italy ability to interpret the needs of contemporary furniture and the most inspiring environments, thanks to the continuous exchange of ideas with architects and industrial designers.

PIOMBO

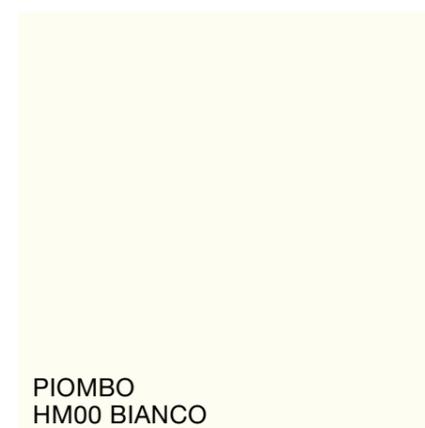

Piombo è una superficie opaca per l'arredo e l'interior design. L'impiego di innovative resine acriliche, applicate mediante il processo Electron Beam Curing, permette infatti a Piombo di avere una bassa riflessione della luce e allo stesso tempo di essere anti impronta, morbido al tatto e altamente resistente al graffio.

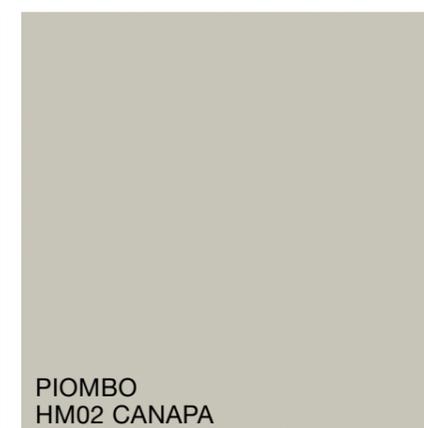

Piombo is a matt surface for furniture and interior design. Innovative acrylic resins, applied using Electron Beam Curing, mean that Piombo reflects very little light while at the same making it anti-fingerprint, soft to the touch and highly resistant to scratches.

BRUCIATO

Shou Sugi Ban è l'antica tecnica giapponese di bruciare il legno per conservarlo nel tempo. Oltre ad essere una pratica conservativa ed ecosostenibile, dona un effetto "legno bruciato" esteticamente piacevole. La finitura Bruciato è la rappresentazione di questo effetto su un'essenza frassino.

Shou Sugi Ban is the ancient Japanese technique of burning wood to preserve it over time. Besides being a conservative and eco-sustainable practice it gives an aesthetically pleasing "burnt wood" effect. The Bruciato texture is the representation of this effect on an ash essence.

OKOBO

Il legno Paulownia è usato per la produzione degli okobo, i tradizionali sandali giapponesi indossati dalle maiko, le apprendiste geisha. Sono realizzati con un unico blocco di legno scolpito ed hanno un tacco molto alto scavato nella parte anteriore del piede. La finitura Okobo ha un aspetto attraente per la regolarità della fibra.

Paulownia wood is used for the production of okobo, the traditional Japanese sandals worn by maiko, the apprentice geisha. They are made with a single block of carved wood and they have a very high heel dig at the front of the foot. The Okobo texture has an attractive appearance due to the regularity of the fiber.
